Neon

Our Neon font was first featured in one of our most iconic Big One subscription boxes “Back to the 80s”.

The holes!

Each of our font stencils has a row of extra holes at the bottom which make up the middles of your letters. We have created a guide for this above!

Create a neon effect

You need just three pens/pencils to create this neon effect: A coloured pen and pencil in the same colour (in this example we have used pink) plus a white paint/gel pen (the sort that would show up on black paper).

Step 1.

Trace the whole word and fill with your chosen colour.

Step 2.

Using a white paint pen, add a highlight line in the centre of each letter.

Step 3.

Add a blur around the edge of the text with a coloured pencil.
