Apricots

Apricots was the first script-style font we made into a stencil, and because of all the loops, there are a lot more holes than usual!

The holes!

Each of our font stencils has a row of extra holes at the bottom which make up the middles of your letters. We have created a guide for this above!

Join it up!

This font works best when the letters are joined up. Experiment with spacing the letters to get a cursive effect.
